

**This Time** (Egge/Connette)

When in the course of human events  
A more perfect union makes most perfect sense  
In the land of the free, oh say can you see  
Then we will have justice and peace

Something is happening here  
We all know the old road's a dead end  
Over and over is over  
And again will be never again

So many good people  
Been beat and shot down  
But a new revolution  
Is coming around  
Out in the street  
There's a crowd gathering

Something is happening here  
We all know the old road's a dead end  
Over and over is over  
And again will be never again

We're demanding the dream  
Is no longer deferred  
That our nation of laws  
Live up to its word  
And we'll hammer out history  
'Til nothing's the same

When in the course of human events  
A more perfect union makes most perfect sense  
In the land of the free, oh say can you see  
Then we will have justice and peace

Something is happening here  
We all know the old road's a dead end  
Over and over is over  
And again will be never again  
Over and over is over  
And again will be never again
